For Immediate Release:

Altercare Post-Acute Rehabilitation Center Has Earned a Perfect Survey

Altercare Post-Acute Rehabilitation Center Earns a Perfect Score

Altercare Post-Acute Rehabilitation Center received a perfect score from the Ohio Department of Health. Noteworthy is the fact that this is the 3rd consecutive deficiency-free clinical survey achieved by Altercare Post-Acute Rehabilitation Center. "This is a tribute to our fine team of medical and healthcare professionals," stated Erin Fromwiller, Administrator Altercare Post-Acute Rehabilitation Center.

Each nursing facility in Ohio receives at least one unannounced annual survey inspection by the Ohio Department of Health. During these surveys, all aspects of care and services are evaluated based on state and federal laws and rules. The Division also investigates resident's rights, quality of care, quality of life, and staffing. To receive a deficiency-free survey, a care center must meet hundreds of federal and state health and safety standards. Only 10 percent of all facilities nationally receive a deficiency-free survey.

Altercare Post-Acute Rehabilitation Center is an exceptional resource for transitional care, comprehensive rehabilitation programs and quality post-acute medical services. This care center is also the recipient of the silver AHCA (American Health Care Association) award for Achievement in Quality Care, a 5-star rating from the Centers for Medicare and Medicaid Services and from U.S. News & World Reports the Best Nursing Homes 2015 recognition. Altercare Post-Acute Rehabilitation Center is located at 1463 Tallmadge Rd., Kent, OH 44240.

About Altercare:

Altercare of Ohio is a family-owned company operating 21 nursing care and rehabilitation centers in Ohio and Michigan. Altercare facilities are dedicated to patient-focused nursing and rehabilitation services. Innovative care programming and employee education are a priority at all Altercare facilities. Altercare provides a full continuum of services including post-hospital transitional care, skilled nursing, physical, occupational and speech therapies, Alzheimer's and related dementia programming and assisted living & independent living in specific locations. The objective of these caring services is to enable patients to successfully transition through our healing pathway.
