

U.S. News & World Report

Names Best Nursing Homes for

Short-Term Rehabilitation and Long-Term Care

## Five Altercare Centers Are Acclaimed as the Best

Washington, D.C. – November 2019 – U.S. News & World Report, a leading expert in the evaluation and rating of health care providers across the country, identified the Best Nursing Homes for 2019-20, evaluating over 15,000 care centers nationwide, across each state and in 100 major metropolitan areas. Less than 23% of all nursing centers receive the “Best Nursing” status. The U.S. News Best Nursing Homes ratings offer individuals and families a starting point in their search for either short-term rehabilitation or long-term care.

“Here at U.S. News we understand that every person researching a nursing home is looking for qualities specific to their needs. We have updated our methodology to reflect multiple dimensions of care that matter when making this important decision”, said Zach Adams, Senior Health Data Analyst at U.S. News. “The inclusion of the new Long-Term Care Rating in this year’s Best Nursing Homes guide expands the quality of data-driven decision support for patients, residents and families choosing a nursing facility.”

“At Altercare, our superior clinical outcomes result in successful healing and are enhanced by our team culture of compassion and kindness,” states Jamie Hurlock, VP of Business Development. “We are grateful for this recognition that distinguishes Altercare among our peers.”
